DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed system for mounting an aircraft engine. Specifically, the prior art fails to show a mounting system with two mounts, each mount having a fail-safe clevis structure comprising a pair of clevis ears, and a respective engine lug disposed between each pair of clevis ears, and where the second mount has a smaller gap between an engine lug and the clevis ears than the corresponding gap in the first mount.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-5 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dunstan, Manteiga et al, Jule et al, Brefort et al, Levert et al, and Roszak are cited as being of interest since they disclose engine mounting systems.
